You walk around and say
All kinds of really mean things about me
Cause you're a meany, a meany
But it's only cause you're really jealous of me
Cause I'm what you wanna be
So you just look like a idiot
When you say these mean things
Cause it's too easy to see
You're really just a big weenie, big weenie

I'll spit on you
I'll spit on you
Start pissin'
And booty i will sit in you (x??)

You want a lesson
I can swallow you

That's how hailers got fucked up

Why are men so attractive to hoes?

I'll spit on you (x??)
