He kept six women chained in the base of his home
For months he raped them daily
He punctured their eardrums so they couldn't hear him
And turned the radio up to mask their cries for help
He wanted them to bear his children
When they didn't become pregnant his torture
escalated
Shocking his captives with jolts of electricity
One victim died of starvation
The second captive from electrocution

Bind, torture and kill (x??)

Hallucinations, delusions and paranoia

Strangle and mutilate

Mutilate (x??)

Strangle and mutilate (x??)

Hallucinations, delusions and paranoia

He removed their eyes
Cut out their organs
And ate their flesh

Brain damage and mental illness of and child abuse
lights the fuse(?)

Strangle and mutilate

Mutilate (x??)

Prostitutes (x?)

Torture

He killed eight people before decapitating his mother
Removing her larynx and shoving it down the waste of
disposal

Decapitated prostitutes

Torture

Strangle and mutilate
Prostitutes, prostitutes

Torture

Strangle and mutilate

Cut out their organs

Strangle and mutilate

Mutilate (x??)
