Ungh you might have your reasons you might have  
your good excuses do you think they might hurt  
someone or kill someone we've got you now we've got  
you where we want you if there's something you wanna  
say they can't complain you are whoh you are they  
don't have a reason they don't have a good excuse oh  
no cause everyone's all the same but they pass the  
blame from me to you to them so given the season and  
the lack of an ounce of reason if there's one thing you  
wanna say don't turn away I'm not ashamed but why do  
I feel this way make no mistake this is my only take  
woah.
