So you're giving it up said it's done it's over you've got
some problems you don't see I don't know here we go I
can't change the future can't foresee there's
something wrong I can't concede what's up what's got
you down if you look away will I turn around nobody
understands what this means to me even when all the
ships are down some good will come you'll see we are
nothing like you realize we are will always be we've got
to be so we've made some mistakes and we've made
bad choices but in our hearts we see it through and I
don't know what to do you can't buy this point of view
you've got better things to do and what you do follows
you.
