How many times can I pass this by?  
On and on regardless  
How many times must I gratify?  
On and on regardless  
How many times must I have this trial?  
On and on in darkness

It's the question of life  
It's a quest for a sign  
A side you'll never know  
It's a question of life  
It's a quest for a sign  
A side you'll never know

How many times must I pacify  
On and on regardless  
How many times, how sullen the smile  
All consuming sadness  
Open your eyes for the last time  
Find a way in darkness

It's the question of life  
It's a quest for a sign  
A side you'll never know  
It's a question of life  
It's a quest for a sign  
A side you'll never know

How many times can I pass this by?  
On and on regardless  
How many times can I multiply?  
On and on regardless

It's the question of life  
It's a quest for a sign  
A side you'll never know  
It's a question of life  
It's a quest for a sign  
A side you'll never know
