my life is not too whole  
its understanding why  
I take when I owe  
I can't explain

but it seems like its going wrong again  
and it feels like its going wrong again

my life is oh so cold  
misunderstanding now  
it seems that I'm slow  
its seems obscene

but you steal and you're on the run again  
and you steal and you're on the run again

without the strength to hold  
onto what's sinking  
I'll pretend its all show  
I can reveal

but it seems like its going wrong again  
and it feels like its going wrong again  
but it seems like its going wrong again  
and it feels like its going wrong again
