

## Paradise Lost "Sedative God"

You belong, don't look back,  
No excuses...  
When you're down, face the crowd,  
So illusive...

To be the same is always there for me  
To feel constrained is always there for me

Can you see the light?  
Can you question why?  
I wonder how, eternally Iâ€™m blind

When you're strong, have no doubts  
So elusive...  
When your thoughts face the shroud  
Unobtrusive...

To be the same is always there for me  
To feel constrained is always there for me

The seeds we never sow  
Sedative god

Right way, there's a wrong way  
And there's no way
