I am bound to you  
From your hot breath  
And your hot blood

I'm dissolving  
Into your arms  
Didn't I warn you

(Chorus:  
My skin's paper-thin when you press hard it bursts  
it burns  
Bones, styrofoam over  
Muscle synthetic  
And my blood's gasoline  
And I thought you'd know better  
You can't light a match around polyester)

I'm a puddle  
Nothing left here  
Except one thing

It's my heart  
Do you want it?  
It's still beating.

(Chorus)

Sha la la la  
Sha la la la

(Chorus)
