You are jumping along the grass
Jump you wanna touch a cloud
You need something from up high
Because your pride is so down
Silly stupid things that you've done
But who knows? It's in your head
Always talking about your privacy in life

And now you wanna hide your,
And now you wanna hide your...

Oh I oh oh...

No, you're bringing the story back
Why are you bringing the story back?
You are bringing the story back...

You are running over the road
Run, do you wanna catch a car?
You need some speeding up
Because you are lately slowing down
Silly stupid thoughts in your head
Who knows what they are about?
Always talking about your privacy in life

And now you wanna hide your,
And now you wanna hide your...

Oh I oh oh...

No, you're bringing the story back
Why are you bringing the story back?
You are bringing the story back
