You are my hero
And I love you
You're be sailing across the sea
I am always thinking of you
You're a hero to me

You are my hero
And I miss you broken heartaches
I would be while we part it
It will breathe it
You're a hero to me

You are my hero
You are fighting
You must be what you have to be
He must find out what we're believing
You're a hero to me

You are my hero
And I love you
You're be sailing across the sea
I will always keep thinking of you
You're a hero to me
