I don't know what you're gonna say
But you know about last night
I had sex with another girl
It's been well recognized now

I don't know what you're gonna do
Maybe you'll kick me out from your life
I have nothing to say to justify
What I've done last night

I? will try the way tomorrow
To the moment dance the place away
And I stay like a NERD with my feeling down
And I stay like a NERD with my feeling down

... without your eyes
... long long time
Life doesn't have any color now
I need to reach for a better one

[Breakdown]

And one day you'll be coming back
At my door with your amazing smile
But I've?
I'm so sorry I?

I don't know what you're gonna say
But you know about last night
I had sex with another girl
It's been well?

I don't know what you're gonna do
Maybe you'll kick me out from your life
I have nothing to say to justify
What I've done last night
