Heaven knows I'm not blind  
Can't adhere without a mind  
Heaven breaths another sigh  
Hesitate what I seek  
Terminate society  
Heaven weeps another cry

Sail me sober  
Stray me closer

Heaven knows I'm alive  
Motivate what's inside  
Heaven breaths a passive sigh  
Can't escape reality  
Never wake a fantasy  
Heaven weeps another cry

"Tormented screams, that only I can hear  
I thrust myself into the black hole and fall through the  
depths  
Sinking Deeper, Becoming Weaker  
Will I Wake... I Break..."

Heaven knows this,  
Can I beat this hell?  
Have I known this  
Enough to save myself  
Have you noticed,  
Another signal's down,  
You're barely focused,  
I shy away

Heaven knows I'm not blind  
Can't adhere without a mind  
Heaven screams another cry
