Frozen landscapes are covering the earth  
Desolation is complete  
Cities lie in ruins falling to decay  
Unrest and terror start to breed

All that we had achieved - is forever gone  
Anarchy is reigning supreme - the forces of unlight  
have won

Times of darkness  
Times of war  
Mankind screaming out in rage  
Times of violence  
Times of fear  
Welcome to the new dark age

Plagues of insects swarming locust arise  
Scorching deserts left behind  
Radiation poisoning the earth  
Mutated creatures come alive

All hope is lost - there is no return  
Evolution out of control - the race for survival is on

Marauding soldiers militious of hate  
Terrorising the land  
Killing and looting burning and raping  
Raising the place to the ground  
Showing no mercy for women or children  
Leaving no place to hide  
The law of the blade nothing is sacred  
Mankind it's own genocide
