Feel the pressure of this time hear your heartbeat  
pounding twice  
Man's emotions is growing cold always asked but never  
told  
See the colours turn to grey our life has led astray

Life is so complicated - the hope is lost in time  
Problems underrated - there is a way  
(Out of the dark)

What we need right now is a saviour from these times  
To take us far away where our inner child can rise

Now the time is close at hand fate's so hard to  
understand  
Mother earth will take revenge for the spoil and all the  
stench  
Everyday maybe our last remind the shadows of the  
past

Life is so complicated - the hope is lost in time

Problems underrated - there is a way  
(Out of the dark)

What we need right now is a saviour from these times  
To take us far away where our inner child can rise

Confidence is hard to find success is all we have in  
mind  
Love and faith are getting rare god help us now we  
better care  
Please release us from our sins and in the end no one  
wins

Life is so complicated - the hope is lost in time  
Problems underrated - there is a way  
(Out of the dark)

What we need right now is a saviour from these times  
To take us far away where our inner child can rise
