And in my anguish, a traumatic rebirth
I see the reason, the madness of these lonely eyes
Would you but suffer, the same way that he did
No love no comfort, all friendship appears only lies

And so I stand here, naked before you
Reframed my mindset, I truly love you
Would you accept my, undying friendship
Came to my senses and start understanding

You, you were so lonely and I,
I, I never saw you so now,
Now, you're finally emptied, there was,
Was no where to go but insane

Let's get straight to the core of what went wrong
When your eyes sort of pierced me fell from grace
I opened my heart, yours to take it
My mind's on it's knees I wait before you

And in my anguish, a traumatic rebirth
I see the reason, the madness of these lonely eyes

Would you but suffer, the same way that he did
No love no comfort, all friendship appears only lies

In this lonesome stretch of life
You and I are side by side
Clinging to the colours in my mind

As the world is passing by
And inside here rests the night
Harbouring the precious thoughts of light

Keep Me Waiting
Softly crying, aching for the love you were denied

Will You Take Me
Softly, gently, take this humble flesh no longer mine

Rape Me Help Me
Softly, crying, crying for the shreds of my own mind

Do Not Leave Me
Softly, falling, groping for the colours of the light

And in my anguish, a traumatic rebirth
I see the reason, the madness of these lonely eyes
