"All Hail Santa"

On top of the world with a gun in his hand, rules the
world with his master plan
Late at night and all through the city, Santa brings toy
guns to your kiddies
Spent your credit in a department store, Santa
stockpiles for a total war

[Chorus]

{Ho ho ho, Seig Heil to Santa, Ho ho ho, north pole
front
Ho ho ho, Seig heil to Santa, The fight has just begun}

Santa's got the face you'll learn to fear, Shaved his
head but he kept his beard
Fighting the battle for your hearts and minds,
Himmler's skills rank far behind
When the sleigh comes Santa won't be late, Cause
everyday is Christmas in the police state

[Chorus]

Well Jack jumped over the candle stick, And all the toy
soldiers do their tricks
Santa's wife can't light his wick, He gets an elf to suck
his dick
He's coming for your kids and he's no jester, Santa
Clause is a child molester
