Girl you fine as hell I should just give your ass a ticket
That booty so thick girl, it belong in guiness
Yeah, you what I like girl, you my type girl
And I think about you girl
Girl I can't help myself, I wanna get you out them
leggings
And put you in the backseat of my car
And start undressing
Yeah, you what I like girl, you my type girl
And I think about you girl

Ya, I'm getting excited, temperature rising
And don't be shy baby, but I sure would like it
If you would just strip for me baby
Your body is the shit, uh baby
Girl I'm just saying, don't leave the way you came in
Your body is so sexy, girl I wanna get you naked
Girl let me be specific, those panties gonna go missing
Don't be shy Shawty, tonight we gonna get explicit
Take it off, off, off,
Take it off, off, off
Now take it off, take it off, take it off
Take it off, take it off, take it off
Uh girl I wanna see you take it off.
