When you reach the other side boy
Will you tell me what it'€™s like?
Dream '€™bout light and love and shelter?
Will you tell me what it'€™s like?

When you reach the other side?
You'€™re cut adrift, maybe tonight
When you reach the other side

Lost Soul
Lost Soul

Hope you like what I have done boy
Will you find some peace of mind
When you see us from a distance
Will you tell me what it'€™s like

When you reach the other side
Will things be better when you hide?
On the other side

Lost Soul
