"Roses on fire"

Visit "[Roses on fire](#)" on MotoLyrics.com

You know me I just like to fly
Just touch my body and don't ask me why
You know me I just like to fly
But it's true, I like you

And only you can make me high
Just touch my heart man and do it right
You know me, i just like it high
And it's true, I like you

And only you...
And only you...
And only you...

You know boy what I feel for you is love and desire
Tonight I will show that is true, my blood is on fire
You know boy what I feel for you is love and desire
Tonight I will show that is true, my roses on fire

You know me I just like to fly
Just touch my body and don't ask me why
You know me I just like to fly
But it's true, I like you

And only you can make me high
Just touch my heart man and do it right
You know me, i just like it high
And it's true, I like you

You know boy what I feel for you is love and desire
Tonight I will show that is true, my my roses on fire

And only you...
And only you...
And only you...

You know boy what I feel for you is love and desire
Tonight I will show that is true, my blood is on fire
You know boy what I feel for you is love and desire
Tonight I will show that is true, my roses on fire.
