Visit "[Remember Me](#)" on MotoLyrics.com

I just don't understand what
attracts you to the man who
just doesn't realise whats there by his side
He keeps on hurting you and
playing with your feelings but ya
pretend that everything
that everything's alright
how can you still be a part
of a guy who keeps breaking your heart
I guess there's something
I just don't understand but

Remember me
I will never lie to ya
I'll treat you right
from the very start
Your better friend
I'll be looking out for ya
He isn't right
Coz baby I will never break your heart

He keeps on messing you up
he's never home at night
what kind of man is he
when all you do is fight baby
Forget about it lady
haven't you had enough
you need to say goodbye to all this foolish stuff
how can you still be a part
of a man who just has no heart
i guess there's something
i just don't understand but

Remember me
I will never lie to ya
I'll treat you right
from the very start
Your better friend
I'll be looking out for ya
He isn't right
Coz baby I will never break your heart

(your heart) If only you were mine (if you were mine)
(mine, all mine) I'd never treat you unkind (baby baby)
Remember, remember, remember me

How can you still be a part (How can you still be a part)
I guess there's something
I just don't understand but

Remember me
I will never lie to ya (i will never lie)
I'll treat you right
from the very start (from the very start)
Your better friend (oh)
I'll be looking out for ya (I'll be looking out)
He isn't right
Coz baby I will never break your heart

Remember me (remember)
I will never lie to ya
I'll treat you right (remember)
from the very start (remember me)
Your better friend (oh yeah)
I'll be looking out for ya (oh baby)
He isn't right
Coz baby I will never break your heart

Remember me
