Close your eyes,
Come fly away with me
I'll take you to places that you've
Never seen, never been before...
I know why,
All the things you've been through
And all the things that hurt you
Are eating you alive...

Right here,
With you
Is where I wanna be
Is where I oughtta be
Wipe your tears away
Coz right now...
Time is on our side
Time is on our side

Come live another day...

Close your eyes and I'll sing you a lullaby
Nothing to fear coz I'm right here by your side...

Close your eyes,
Come fly away with me
I'll take you to places that you've never seen
Never been before...
