Hey, i thought of you today
I thought that i should tell you
How much i miss you
Remember what you used to say
"friends forever, i hope that we'll remain this way.. oh.."

All this time, i've been thinkin' bout the way we used to
play\the promises we made..
You're everywhere i go i can't escape you,
When i close my eyes i see you
Even in my sleep i think of you.. oh..
I miss you..

Can we put the blame on the changing times?
Where have all the years gone by?
So fast, so young,
So sure that this will never end
I'll always stand by you, my friend
But forever was just too long..
