I want my tunnel vision
I need my medication
I want your arms around me
Wop bop dip bop doo doo doo doo
I made myself religion
I make my own decisions
I want your arms around me
Wop bop dip bop doo doo doo doo
I give myself promotions
To ride in automotion
I want your arms around me
Wop bop dip bop doo doo doo doo
I catch myself from falling
I hear my heaven calling
I want your arms around me
Wop bop dip bop doo doo doo doo

I'll march in syncopation
I'll do it all
Give you that masturbation
I'll do it all

Hey little fingers how do ya do?
I'll lick the sweat from your feet if you want me to
I'm the king of spank oh what a duty I do
I'll suck a bucket of crud right out of you
