

Apokalyptic Raids "Into The Twilight Zone"

Visit "[Into The Twilight Zone](#)" on MotoLyrics.com

I'm neither alive - nor am I dead!
I'm stuck between nightmare and dream...

When reality makes no sense to me
What should we see? Mere delusions, are we?

(Chorus)
Into the twilight zone

The invaders come, who are they?
Did they land from the sky?

Mr. Death knocks at my door
Beauty is in the eyes of the beholder...

Mysteries of existence
What is real... What could be?

Mysteries of non-existence
Is it unreal, should it be?
Past and future, together as one
In my mind time has gone
