Yeah!

Now we go in time, stupid
Put the word to: "Are", loop it
Put the word to: "Are", loop it
Now we go in time
(I want a big, white castle)
Stupid
(Carried, seen on wet lips)
Put the word to: "Are"
(Find does in time like an old tree)

Personal pure time
In spacial continuum
But they don't think right
Our future's sells bigger sides

In and out of confrontations
We don't care of where we wanna go
All the places we are going
Up and down, diagonal
In, across, down and all
Diagonal and in slow motion
Diagonal and in slow motion

Yeah, uh-huh!
Now we go in time, stupid!

Time police are coming
Hide away evidence
Hide away evidence

Personal pure time
In spacial continuum
But they don't think right
Our future's sells bigger sides
Find does in a time like and old tree

Uh-huh, yeah, uh-huh!
