Your holding on, when you outta let go
Before you know it you'll be back on the road
Your putting love where there is no love at all
Before you know it you'll be hitting the wall

But now your free
I see your eyes in my dreams
They follow me as I live and breath
It's a beautiful thing

I in a phone booth but I am not going to call
You know it dangerous to talk to me at all
I am excitable I don't know when to stop
I just keep paceing the floors of this old truck stop

But now your free
I see your eyes in my dreams
They follow me as I live and breath
It's a beautiful thing

I am thinking of you
It's a beautiful thing

I am thinking of you
It's a beautiful thing

I am thinking of you
It's a beautiful thing... yeah

I am thinking of you
It's a beautiful thing

I am thinking of you
It's a beautiful thing... yeah... yeah

I am thinking of you
It's a beautiful thing
