## "Fuck The System"

Society has a system, it's meant to control  
Lock you in a cage, and trap you in a hole  
We reject these standards, we won't cut our hair  
We ignore the system, cause we don't fuckin' care  
Chorus  
We won't live a real life, with jobs and wives  
Fuck the system!  
We just wanna play some grind, drunk and high  
Mincing system!  
Blazing through conformist fools, fuck the rules  
Fuck the system!  
Drinking in the afternoon, party dudes  
Punk existence!  
Society says that we should get a fancy job  
Wear fancy clothes, quit looking like a slob  
Society also frowns on doing lots of drugs  
But we frown on success, relationships and hugs  
Chorus
