Archagathus
"Warning"

[Father Aurelius:]
What did you think
When you turned against the nature?
You broke the rules, the law that the Gods created
How can you say
That your science is the savior?
You can't bring back all the things that faded

Don't forget the words.
?Everything is fixed and you can't change it"

Why do you believe
In a false imagination?
You should know the time is not your servant
Don't be so proud
Of your terrible creation!
It's madness to believe that you can rule it

Don't forget the words.
?Everything is fixed and you can't change it"

You're leaving all the world behind
For making real your dream
But I'm afraid you have to fall
I wish that I could hold you back
But you don't hear my scream
Out there you'll be alone
No one to call ? to save you
