Verse 1:

We could light a fire under the sun
We could blast the radio when we got nowhere to go
We could put the car in cruise control (oh yeah yeah
whoaaaa)
We could blast the radio when we got nowhere to go
Cause girl I've come a long long way for you
And you can make the plans just tell me what you
wanna do
Out of everyone, you're the one I'll be singing too
Cause girl I've come a long long way for you

Chorus:

And when the time comes
I'll be on the run
I love this town but gotta move on to the next one
And when I will be back, girl I don't know
And in the meantime
I'll be doin fine
I realize it's really hard to say goodbye
And leaving you is the hardest part about the road

Verse 2:

We could spend the night under the moon
Forget about the real lifeÂ... just enjoy the view
I get lost in time when I lie down next to you
We could rock the whole night away, nothing I would
rather do
And I realize normally we would take it slow
Without a destination, just spin the globe
And we can get high baby girl if you're feeling low
I can promise you tonight, you're the only girl I know

Chorus:

And when the time comes
I'll be on the run
I love this town but gotta move on to the next one
And when I will be back, girl I don't know
And in the meantime
I'll be doin fine
I realize it's really hard to say goodbye
And leaving you is the hardest part about the road

Breakdown Verse:

We could light a fire under the sun
We could blast the stereo when we got nowhere to go
We could put the car in cruise control
We could blast the stereo when we got nowhere to go

Chorus:

And when the time comes
I'll be on the run
I love this town but gotta move on to the next one
And when I will be back, girl I don't know
And in the meantime
I'll be doin fine
I realize it's really hard to say goodbye
And leaving you is the hardest part about the road

Outro:

We could light a fire under the sun
Cause girl I've come a long long way for you
