Verse

Dresses up like super star
I'm in the mood of some sun
Under the water, feeling sexy
Laying on the white sand

Tonight we're gonna go out
No time for fooling around
Don't wanna waste no time
The party's on and I'm the king now

Now show me how you go do o own
You know that you can find me
Every night at club
And even if I don't know you yet

Come closer baby
Wanna heat you up, heat up

Pre-chorus

This night
The party is alright
The temperature is rising
So hot, can't deny it, I'm falling in love
Your dress is going down
And my lips are thirsty now
If I kiss you, baby you'll come back begging for more

Chorus

Oh it's itching itching oh
It's gonna make you itchy oh
I'm gonna make you itchy oh oh oh oh oh oh
Does it itch?
I thought so!

RAP

If u gonna get down
Turn the heat on slowly down NOW
