Hollowed in existential chaos, feel the embrace of its undertow*

Phase in and out of a deconstructing mage that we find
Gaze into this hatred filled plight and design the fabrics of destruction
As fermenting as it may be, splendor lies within its shards

Pathological embers smolder continuously, Vividly escaping through scorched synapses
This ferment is all that will be, stand and absorb its inequity

[Chorus:]

Destruction is our only means and we spread it with such fervor,
I'd like to bask in the warmth of our civilization as it goes down in flames
This requiem rings in the ears of a populace lost in a labyrinth of arrogance

As dissonance reigns its force shackles all its soils
The face of all being shattered underneath its pressure
Witness this disfigured atrocity, it stands alone amongst its ruins

[Repeat Chorus:]

Bleed deceit as it scrapes the face of our mother with razorblade fingertips
Tear away the essence of humanity like wolves ravaging children of excess

But to descend deep inside the cracks is to discover profound brilliance
And to believe such an agitating dream, Into depths of worldly malignancy
The key remains concealed

Lost inside this fractured antipathy, wallow in a cavern of malevolent precipitation

Bleeding from the womb of a mother, this disease has
spread beyond regression
