Splatter the canvas of being, resonate with the essence
of radiance*

Tread the path deep within the outside realm, and
dissasimulate to become whole

Vibrate in unison with the symphony of existence
It's crescendos sweep through the dimensions of
reality

Mythical ethos falling through the glass, shattering
memories past
A multitude of origins culminating, smell the scent of
withering ash

[Chorus:]

This claims existence, ones presence uninhibited
Staining the conscious and distant, gorge the minds
eye upon the cinders
The glass sits placid as a massive universe sits hidden
Gorge the minds eye, the soul is a parchment upon
which creation is written
The glass sits placid as a massive universe sits hidden

The spiral unwinds, let this force take you in as whole
Under the ground of the withering monarch
Gazing in their hallowed veins, there birth remains in
vast unreaching
Searching for all vital senses, an answer lies within the
tempest
Ensue beyond your own well being, free reach of
sightless seeing
The spiral unwinds, let this force take you in as whole
Under the ground of the withering monarch

Stacks of clamor mount upon weakened shoulders
Falter blindly as we forget our instincts
But behind the withered doors lies the answer tightly
bounded
As we unlock our hidden supremacy

[Repeat Chorus:]

Gazing in their hallowed veins, there birth remains in
vast unreaching
Searching for all vital senses, an answer lies within the
tempest
Ensnare beyond your own well being, free reach of
sightless seeing
Under locks of your digression, free yourself from your
depression
