"Forever Triumphant"

Visit "[Forever Triumphant](#)" on MotoLyrics.com

We travelled so far
Through space and time
As I greet the coming day
I know that I was blind

Memories they come and go
Vanishing into the night and I
Look inside to find the truth
Searching for the light

Burning hearts
Rise with the sun
Joining together we are one
Souls of truth
Stand and believe
Forever triumphant we'll be

Now walking alone
The wind in my face
Emotions by my side
That I shall embrace

A call to the heavens
A cry from my soul
I live in the moment
While time takes it's toll
