Take a look at yourself,  
You're wallowing in self pity  
Drowning in your minds morbidity  
Concern for your health  
Will lead to your death  
A victim of your own anxiety

Hypochondriac, morbid anxiety  
Hypochondriac, the way that you think,  
Is not the way that you feel  
No medicine prescribed by any doctor  
Can cure you of  
Your pessimistic melancholy views  
There is no remedy for your mortality  
Treatment for your ailment a fallacy

Hypochondriac, morbid anxiety  
Hypochondriac, the way that you think,  
Is not the way that you feel

Tranquilisers act as your solution  
Relief is found, but not recovery  
Not thinking they can kill  
You gorge yourself with pills  
Death by overdose, fatality

Take a look at yourself,  
You're wallowing in self pity  
Drowning in your minds morbidity  
Concern for your health  
Will lead to your death  
A victim of your own anxiety

Hypochondriac, morbid anxiety  
Hypochondriac, the way that you think,  
Is not the way that you feel
