The bird said to the bee
Come on take a ride with me
I'll take you across the field
That's where the lovers made me

So the bee said to the bird
Come on take a ride with me
I'll take you to this field
That's where the lovers made me

So the bee said to the bird
Come and take a ride with me
I'll take you to this place
Where the lovers made me

So the bird said to the bee
Come on take a ride with me
I'll take you to the space
Where the lovers made me

That's where the lovers made me

So the bird said to the bee
Come on take a ride with me
I'll take you to the space
Where lovers made me

So the bee said to the bird
Come on take a ride with me
I'll take you across this plain
Where the lovers made me

That's where the lovers made me
