"The act"

Visit "[The act](#)" on MotoLyrics.com

I'm gonna get my act together
I'm gonna climb the highest tether
I'm gonna clean all of my feathers
Just to be there with you in the sky

I've got a special way to protect myself
A special way that I think of you
This ain't night time, and this ain't day

It's just the way that I remember
And the way that I thought
Life was supposed to be

In the back of the boot with a beautiful suit
I'm going down that highway
This ain't night time, and this ain't the best time for me
It's just the way that I remember
And the way that I thought
Life was supposed to be

Don't ask me why
