Hammering down your head
Wishing your were be dead
Suffering infection and violence
Keeping your mind in silence

Hatred, sterility, conceited, delict
Carnality, defiant, sacrilege, covetous
Trait trait trait
Trait of homo sapiens
Trait trait
Trait of homo saphiens
The cosmos never ends
Nobody defends
The hell must be you tent
Welcome to your pent

Open your blinded eyes
All your hopes die
Your can't breath darkness
Surrounds you by reality
Death comes to claim you
Your brain rotten with pain
Intenerate velocity
Immersed in pure insanity

Come onnnnnnn

Hammering down your head
Wishing your were be dead
Suffering infection and violence
Keeping your mind in silence

Hatred, sterility, conceited, delict
Carnality, defiant, sacrilege...
