They don't own me.
I'm not a piece in their game
Can't control me
They're the only ones to be blame
I'll never breakdown
I won't give up this fight
I'll give them nothing
Nothing
Nothing

(Ooooooooooh)

Just one kiss and I will be hooked to her fire
Her flames are surrounding me now
As we watched as they light up the sky
We must stand up and fight

Cause this love is not a game to me
We'll survive
And start an uprising
You can ignite (you can ignite)
Stand and fight (stand and fight)
Don't cave in (Don't cave in)
Let the Games begin

Notice me
Cause I've been all along
I've been waiting
Since you sang me your song
It's our moment to turn things around
And show 'em something
With nothing
With nothing

And now our star-crossed love has materialized
We've locked our fate right here, right now

Just one kiss and I will be hooked to her fire
Her flames are surrounding me now
As we watched as they light up the sky
We must stand up and fight

Cause this love is not a game to me
We'll survive
And start an uprising
You can ignite (you can ignite)
Stand and fight (stand and fight)
Don't cave in (Don't cave in)
Let the Games begin

She doesn't know the effect she can have
No she (No she) doesn't know (doesn't know) the effect
she can have.

Just one kiss and I will be hooked to her fire
Her flames are surrounding me now
As we watched as they light up the sky
We must stand up and fight

Cause this love is not a game to me
We'll survive
And start an uprising
You can ignite (you can ignite)
Stand and fight (stand and fight)
Don't cave in (Don't cave in)
Let the Games begin
