I've got a static aesthetic  
Nihilistic prophetic  
Everything is a goddamn lie

I want to go grab a shovel  
So I can dig up the devil  
So I can ask him why so I can ask him why

And I think I think and therefore I am  
Hey man don't you understand  
And I think I think and therefore I am  
Hey man cant you understand

That I've got the power to ruin revolution  
Hey hey I say bombs away  
What would would you say if I say bombs away  
And you're not not so notorious

I'm standing up on a mountain telescope  
I'm just watching everybody just try try try  
I'm gonna reach way up high so I can pull down the sky  
So I can ask him why so I can ask him why

And I think I think and therefore I am  
Hey man don't you understand  
And I think I think and therefore I am  
Hey man cant you understand

That I've got the power to ruin revolution  
Hey hey I say bombs away  
What would would you say if I say bombs away

I know I know I start with the finger  
And move to the fist  
'cause you're the first person  
That I'll cross off my list  
I start (I know) with the finger (I know) and move to the  
fist (I know I know I know I know)  
And you're the first person  
That ill cross off my list
