

As Winter Falls "Road To Nowhere"

Visit "[Road To Nowhere](#)" on MotoLyrics.com

Step by step she walks this world
With head held high
Like she's the only one
Smiling to the pain inside
The hope within collides

And she keeps on walking
On this road to nowhere
She keeps on singing
The same song

The monsters try to break her down
While she carries on
Will she hold on

And she keeps on walking
On this road to nowhere
She keeps on singing
The same song

The ground beneath her feet
Is slowly breaking
Will she ever find a home
