YOU!

It's so loud and it's crowding my eyes
And now I can't look away.
And right now nothing else is real,
Just keep your eyes on me, it won't
Be long until

It's you and me, (it's you)
It's you and me. I wanna tell you
Everything, I wanna tell you everything
'Cause I am so in love with you,
I wanna fall in love with you.
There's no where else I'd rather be,
There's no one here but you and me.

We've come so far
The sun is fading,
Now I am all of your with you.
This is where I wanna stay,
This is the only thing that's real
Nothing will pull me away.
I won't let go until

It's you and me, (it's you)
It's you and me. I wanna tell you
Everything, I wanna tell you everything
'Cause I am so in love with you,
I wanna fall in love with you.
There's no where else I'd rather be,
There's no one here but you and me. (x2)

It's all you! (x2)
