Don't be a slave.  
Only this way  
You will be able  
To put an end  
To the sufferings  
Throw down the chain of birth  
And death.  
But pain penetrated into me  
While I was thinking, retired into myself.  
How little I was left to live...

Hurry up before this body  
Perishes and disappears,  
Before diseases and old age  
Fall upon me,  
Hurry up,  
There is no time  
For inaction.

And thinking  
Over the nature  
Of transient  
Forms of being.  
I achieved my liberation  
As the words  
Of Creator  
Sounded for me.
