[Music by A. Afonchenko & A. Tselobenok, Lyrics by A. Afonchenko]

It's again a dream. It's again a life.  
But is it life. Or is it fantasy,  
Wish to turn desirable in to reality?  
There is no that night, wonderful  
Night which I idolized so much,  
I see only thickening of the darkness  
Of gloom which is approaching.

Oh, what is it?  
That is it goes to  
Take me forever, because I'm not  
The first and far from the last  
Who has believed in all this.  
It has come. It enjoins me.  
I collected my thoughts, wishes, dream  
For the first time in my life  
And the voice of my...

The voice of my internal being,  
The voice of my soul,  
The splash of emotions  
Thoughts prayed for mercy, rest.  
All my being resisted, saying him...

But I Can't I don't want. I won't.  
But nobody heard my entreaty  
The voice of my soul sank into the night  
And The answer was only a terrible  
Cold roar of dark silent, ruthless night,  
The roar of an alien mind  
YOU MUST.
