I think I'd be lying if I said I don't enjoy this
Waking up soaked in sweat
Wondering who you're lying with

The sinkings better when he dips to reach that perfect
place
Where we've all been trapped before
Caught living in the life you...

Missed the reason, had to breathe
Held your breath and couldn't breathe
Missed the reason, had to breathe
Held your breath and couldn't see

I hear songs of this cancer coming on
I love the sound of your voice breaking off
So I sing along to steal your love
And out of the banner's that make this song

I think I'd be lying if I said I didn't miss this
Slipping off the edge of the bed
No one can kiss you better than that

One more try, one more good night
Don't pull away so fast, ten more seconds is all I ask.

Missed the reason, had to breathe
Held your breath and couldn't see
Missed the reason, had to breathe
Held your breath and couldn't see

I hear songs of this cancer coming on
I love the sound of your voice breaking off
So I sing along to steal your love
And out of the banner's that make this song

One more try, one more good night
One more try, one more good night

So mad, this feeling never catches up
Her dream, in the arms of a sunburnt boy in love

I know what you're all about now, I know where the
engines run out
I know what you're all about now, I know where the
engines run out

So I sing along to steal your love
So I sing along to steal your love

You're busy fucking everyone
You're busy fucking everyone
You're busy fucking everyone
You're busy fucking everyone

Think of the love...

Think of the love...
