"Fortress"

Visit "[Fortress](#)" on MotoLyrics.com

We are facing the night together
Sitting side by side
You are like a guarded fortress
Ready for a try

Side by side - I feel the call
Side by side - just like my first girl

But I know your fortress
Your fortress has no walls
Yes, I know your fortress has no walls - no walls

Looking in your eyes and smiling
Why am I afraid
I can take this fortress now
It's ready to be made

Face to face - I feel the call
Face to face - just like my first girl

Chorus:
Face to face - I feel the call
Face to face - just like my first girl...

Chorus
