Spring play written for the obvious in mind  
You rise and analyze secret little kneeshakes  
That keep you up all the time  
We surround in circles, try to get up

One more false move  
One more action, I can't forget anything else  
In the event that I might slip up, I'm telling you now  
Open your eyes and memorize, here on and out

Take your eyes out  
You play the part so well  
Cut off screened in  
Tracklessly dreaming

Always a combination  
Of one or the other  
Girl keeps screaming  
Boy keeps feeling, far away

Isolated and just stained blood red  
Isolated and just stained

One more false move  
One more action, I can't forget anything else  
In the event that I might slip up, I'm telling you now  
Open your eyes and memorize, here on and out

Here on and out  
Here on and out  
Here on and out

Right now  
She must be thinking  
There's too much on his mind  
And not enough of mine

One more false move  
One more action, I can't forget anything else  
In the event that I might slip up, I'm telling you now  
Open your eyes and memorize
