We've all the time, time in the world  
We've all the time, time in the world,

We should slow, yeah we should slow down  
Girl take it easy on yourself  
Take it easy on yourself  
We should show, yeah we should show town  
That we can leave time on the shelf  
We can leave time on the shelf

For this young heart's not in a hurry  
Girl there's nothing to worry about  
We've all the time in the world  
No I'm not in a hurry  
Girl there's no need to worry yourself  
We've all the time in the world

We've all the time, time in the world  
We've all the time, time in the world

So let it go, girl just let go  
The past is long gone, it's yesterday  
And no chance is blown, no our chance is not blown  
There's no need to wish our lives away

For this young heart's not in a hurry  
Girl there's nothing to worry about  
We've all the time in the world  
No I'm not in a hurry  
Girl there's no need to worry yourself  
We've all the time in the world

Tick tock tick, Time's a ticking bomb  
Though you shouldn't be scared  
I will always be there for you  
Tick tock tick  
Goes the tick of the clock  
Time is something we just can't stop!

Still this young heart's not in a hurry  
Girl there's nothing to worry about  
We've all the time in the world

No I'm not in a hurry  
Girl there's no need to worry yourself  
We've all the time in the world

We've all the time, time in the world  
We've all the time, we've all time in the world,

We've all the time, time in the world  
We've all the time, we've all time in the woooooorld,  
Ohhhh!  
We've all time in the woooooorld,  
We've all time in the world
