Don't be afraid,
I won't let you wait in the dark, the dark,
We made mistakes,
And we're trying to change but it's hard, so damn hard, yeah

I know i've not been strong enough,
And I know it's been so long my love, so justâ€¦

Turn down the city lights,
Turn em right down,
Turn em right down,
Til it's just you and me,

Turn down the city lights,
Turn this around,
Let's Turn this around,
Tonight just you and me,

Yeah tonight just you and me,

At last, hey can we go back to the start? The startâ€¦
And I'll cover the tracks,
Then stay on the map to your heart, yeah to your heart,

I know i've not been strong enough,
And I know it's been so long my love, my love,

So turn down the city lights,
Turn em right down,
Turn em right down,
Til it's just you and me,

Turn down the city lights,
Let's Turn this around,
Let's Turn this around,
Tonight just you and me,

And all our friends say walk away,
That we're almost made to fail,
But I won't change my mind,
No I can't live no lie,
You are everything tonight... tonight! so

Turn down the city lights,
Turn them down, oh!

So turn down the city lights,
Turn em right down,
Turn em right down,
Til it's just you and me,

Turn down the city lights,
Let's Turn this around,
Let's Turn this around,
Tonight just you and me,

Turn em down, Yeah Turn em down, All the way down,
Come on and, Turn em down, just Turn em down, all the way down,
Yeah til it's just you and me!.
