I feel like time heals nothing  
It's just another saying  
I believed was true

After all the fighting  
I've taken all the blame  
For everything for you

We can go the distance to be closer  
So please don't walk away  
I never meant to make this harder  
Got things I want to say  
(To keep the fire)

I'll hold you when you cry  
Forgive you when you lie  
You know how hard I try  
To keep the fire  
(To keep the fire)  
Keep the fire

(Keep the fire)

I'll hold you when you cry  
Forgive you when you lie  
You know how hard I try  
To keep the fire  
(To keep the fire)  
Keep the fire

(Keep the fire)
