Save those tears my love
Put that new dress on
We'll be safe tonight
At The Carnival

Through those rusty gates
On the edge of town
We'll be breathing in the glow
Of The Carnival

And I don't think much
About the time we've passed
And I don't think much
About the dreams we've lost
We're above the world tonight

The two of us

Wipe those tears my love
Keep you hand in mine
Through the dusty drone
Of The Carnival

And I don't think much
About the time we've passed
And I don't think much
About the dreams we've lost
We're above the world tonight
The two of us
